SUMMARY

SOFTWARE ENGINEER | .NET CORE | ANGULAR | AZURE | AI-ASSISTED DEVELOPMENT

Results-driven Software Engineer with 4.5+ years of experience designing, developing, and delivering enterprise-grade web applications using .NET Core, ASP.NET MVC, Angular, C#, SQL Server, REST APIs, and Azure technologies.

Experienced in developing scalable applications for telecom operations, repair management, inventory management, warehouse management, quality control, and reverse logistics domains. Skilled in system design, API development, database optimization, cloud-based solutions, and enterprise application architecture.

Actively leverage AI-powered development tools including GitHub Copilot, ChatGPT, Kiro, and Windsurf to accelerate software development, improve code quality, optimize debugging, generate documentation, and enhance engineering productivity.

Demonstrated ability to take ownership of modules, collaborate with cross-functional teams, interact with business stakeholders, support junior developers, and contribute to technical decision-making. Seeking opportunities to grow into Senior Developer and Team Lead responsibilities while continuing to deliver high-quality enterprise solutions.

EXPERIENCE

Software Engineer

Techstalwarts Software Development LLP | Mumbai, Maharashtra, India | Nov 2021-Current

- Design, develop, and maintain enterprise web applications using .NET Core, ASP.NET MVC, Angular, C#, SQL Server, Entity Framework Core, and REST APIs.
- Worked on HRMS, SLAM Property Management domain applications, delivering scalable, business-driven solutions. Currently working with the CTDI client, developing and supporting applications in the logistics and financial domains.
- Participate in requirement analysis, solution design, development, testing, deployment, and production support activities.
- Build and optimize RESTful APIs, SQL queries, stored procedures, functions, and database structures for high-performance applications.
- Implement Clean Architecture, Repository Pattern, Dependency Injection, MediatR, FastEndpoints, and modern development practices.
- Collaborate directly with clients and business stakeholders to understand requirements and deliver technical solutions.
- Take ownership of critical modules and ensure timely delivery of business requirements. Support junior developers through technical guidance, code reviews, debugging assistance, and knowledge sharing.
- Utilize AI-powered development tools including GitHub Copilot, ChatGPT, Kiro, and Windsurf to accelerate coding, troubleshooting, documentation, and development productivity.
- Continuously enhance technical expertise by learning and working with Microsoft Azure Cloud, CI/CD pipelines, Jenkins, Docker, and Kubernetes for modern application deployment and infrastructure management.

PROJECTS

Dynamic Form (Tata Steel)

- Role: .NET Developer | Frameworks: .NET MVC, Dapper
- Responsibilities: Developed dynamic form management web apps with iframe integrations and optimized workflows using JIRA.

Project Management Institute (PMI)

- Role: .NET Developer | Tools: GitLab, SSMS
- Responsibilities: Designed a hybrid e-commerce API, managed backend services, and deployed on Amazon EC2.

Innov Digione & Client Service Portals

- Role: .NET Developer | Frameworks: .NET MVC, Entity Framework
- Responsibilities: Built custom APIs and Windows Services, designed UIs, and ensured seamless client interactions.

Belson Admin & Belsio Customer

- Role: Back-End Developer | Frameworks: .NET Core, EF Core
- Responsibilities: Migrated systems to .NET Core, developed RESTful APIs, and utilized repository patterns and Dependency Injection for maintainable code.

CTDI MCE.ACEAU.OLP.ApplicationFL

- Role: Full Stack Developer | Frameworks: .NET Framework, Knockout.js
- Responsibilities: Collaborated on a modular architecture, enhanced data management with Entity Framework, and ensured effective version control.

CTDI MCE.ACEAU.OLP.AC

- Role: Full Stack Developer | Stacks: .NET Framework Core, Blazer, EF Core, FastEndpoints, MediatR
- Responsibilities: Designed UI with MudBlazer, collaborated on a Clear architecture, created APIs on .Net Core with FastEndpoints and MediatR, enhanced data management with Entity Framework Core, and ensured effective version control.

CTDI (DAILY PROFIT & LOSS (DPL))

- Role:- Full Stack .NET Developer | Frameworks: .NET, MVC, Entity Framework
- Responsibilities:
 - Developed and enhanced DPL modules using ASP.NET MVC, C#, JavaScript, Entity Framework, LINQ, and SQL Server.
 - Created Stored Procedures and optimized SQL queries for reporting and business operations.
 - Implemented business logic, UI enhancements, bug fixes, and production support.
 - Collaborated with stakeholders to deliver scalable and efficient solutions.

EDUCATION AND TRAINING

Master in Computer Application: Master in Science -2022/8.50 CGPA

Late Bhausahab Hiray Smarnika Samiti Trust Institu | Maharashtra, Mumbai

Bachelor of Science: Information Technology -2018/7.50 CGPA

M.P.S.P. Singh College of Arts Science & Commerce | Maharashtra, Mumbai

HSC Science(PCMB): Science Education -2015/62%

Patuck Gala College Of Commerce & Management | Maharashtra, Mumbai

SSC -2013/71%

Public High School | Maharashtra, Mumbai

CERTIFICATIONS AND COURSES

ASP.NET Course From Aptech Computers

SKILLS

- Microsoft Visual Studio (2013-2022)
- M-SQL Server Management Studio(2012-2017)
- HTML, HTML5, CSS, CSS3, JavaScript, Angular
- Responsive Web Design
- .Net (With Core)
- C#
- Microsoft ASP.NET & ADO.NET Core
- Entity Framework
- Patterns(MVC, MVVM, Repository, Microservices, Razor)
- MudBlazer
- REST APIs
- Database Structure Creation and Optimization
- SQL Server, PostgreSQL, Oracle
- AI's(Kiro, Windsurf, ChatGPT, GitHub Copilot)
- Prompt Engineering
- Azure DevOps

ADDITIONAL INFORMATION

- **Quick Learner:** Adaptable and skilled at mastering new technologies to contribute effectively.
- **Proactive Problem Solver:** Efficiently identifies and bridges knowledge gaps to overcome challenges.
- **Collaborative Team Player:** Thrives in teamwork, leveraging collective insights for innovation.
- **Passionate Professional:** Driven by a genuine love for technology and a commitment to quality.
- **Valuable Asset:** Combines diverse skills, eagerness to learn, and dedication to deliver exceptional results.

INTERESTS

- **Technology Exploration:** Passionate about staying updated with new tools, frameworks, and methodologies.
- **Problem-solving:** I enjoy tackling complex challenges in software and real-world scenarios.
- **Continuous Learning:** Committed to growth through courses, workshops, and self-study.
- **Collaboration & Networking:** Eager to work with like-minded professionals and contribute to shared success.
- **Hobbies:** I enjoy playing computer games and Strategy games.

LANGUAGES

- HINDI, ENGLISH.
